Salutations of the Satellites

Curated by Kester of Harlan

This book is a private publication that exists only for the pleasure of the Chalk Man Satellites. All other uses are null & void.

In the 70's & 80's, a group of fun people created the group pseudonym Kester of Harlan to share words. The name is resurrected here to indicate the contributions and words of many, though curated by a committee of one. Released Sunday 28 July 2024 at the 51st Pennsic War at Cooper's Lake.

This book is intended to embrace the cascade effect of writing/reading created by the great Québécoise writer Jack Kerouac when he taped sheets of paper together so he could type **On the Road** in its original 120 foot-long scroll format; as if it were all in one breath. As such, this book is best enjoyed by pouring the profanity like a waterfall before your eyes and letting it carry you along.
